N/A

b6) WHO SHOULD YOU CONTACT IF YOU HAVE ADDITIONAL QUESTIONS IN RELATION THERETO?

For any question on the above, please contact the AIFM compliance team on the following address: [LuxCompliance@RiversideCompany.com](mailto:LuxCompliance@RiversideCompany.com)

**c. Facilitate the handling of information relating to the exercise of investors' rights arising from their investment in the AIF in the Member State where the Fund is marketed.**

c1) WHAT ARE YOU INVESTING IN?

The Fund's primary purpose is to realize long-term capital appreciation primarily through the purchase of a broad and varied portfolio of controlling private equity investments in Portfolio Companies which generally have earnings before interest, taxes, depreciation and amortization (EBITDA) of up to €30 million and are organized, headquartered, principally operating, have a majority of their assets or generate a majority of their revenues in any member state of the European Union, United Kingdom, Norway and Switzerland. Subject to the other provisions of the Limited Partnership Agreement, the Fund may also invest in debt securities of Portfolio Companies and make minority investments in Portfolio Companies which meet the above criteria where the General Partner does not intend to obtain control (measured by the ability to elect a majority of the members of the board of directors or equivalent governing body of an entity), including minority investments in public companies where the intent is to gain control of the public company. After acquiring a Portfolio Company, the Fund will attempt to grow that Portfolio Company, often through Add-On Investments.

c2) WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

An investment in the Fund will involve significant risks due to, among other things, the nature of the Fund's investments. LP Interests are suitable only for sophisticated investors for whom an investment in the Fund does not constitute a complete investment program and who fully understand and are willing to assume the risks involved in the Fund's investment program. The Fund's investment program, by its nature, may be considered to involve a substantial degree of risk. Prospective investors of LP Interests should carefully consider the risk factors in connection with an investment in the Fund as described in the section Risk Factors of the Private Placement Memorandum.

In considering the purchase of an LP Interest, prospective investors should bear in mind that there can be no assurance that the Fund will be able to implement its investment strategy and investment approach or achieve its investment objective, or that investors will receive a return of their capital. Investment results may vary substantially on a quarterly and annual basis.

c3) WHAT ARE THE RISKS OF CAPITAL LOSS?

There can be no assurance that the Fund will be able to avoid losses.

c4) WHAT RETURN CAN YOU EXPECT?

It should not be assumed that an investment in the LP Interests will be profitable or that the future performance of the LP Interests will equal the past performance of other investment vehicles managed by the AIFM and/or affiliates thereof. Information on the revenues generated shall be disclosed in the annual report of the AIFM.

Please refer to the Memorandum, in particular the paragraph under Section "Risk Factors": "The Fund is not expected to generate significant current returns, if any".

c5) WHAT ARE THE PROCEDURES AND ARRANGEMENTS RELATING TO INVESTORS' EXERCISE OF THEIR RIGHTS ARISING FROM THEIR INVESTMENT IN THE FUND PUT IN PLACE BY THE AIFM?

Investors in the Fund may address any complaint relating to the Fund to the Complaints Handling Officer of the AIFM. The Complaints Handling Officer will send an acknowledgment of receipt in writing within ten business days of receipt of the Complaint. A clear, concise and exact response will be sent within one month of the receipt of the Complaint.

c6) HOW CAN YOU FILE A COMPLAINT IF NEEDED?

The procedure for filing a complaint is available on the website of the AIFM, the link is: <https://www.riversidecompany.com/media/03kf1r5v/2022complaintshandlingpolicyinternet.pdf>

c7) IS YOUR INVESTMENT ETHICAL OR USEFUL FOR SOCIETY? (ESG criteria)

The Fund intends to promote environmental as well as social characteristics by considering the following environmental, social and governance ("ESG") and values ("ESG&V") aspects:

- Climate change
- Gender diversity of board members
- Build-up of ESG governance
- Contribution to UN Sustainable Development Goals (SDGs)

To the extent practicable, reasonable and applicable in connection with the Fund's investment mandate, the General Partner will take certain ESG risk factors into account in its investment process. In particular, where practical, reasonable and applicable, companies primarily engaged in the production or provision of certain products or services may be subject to additional diligence, or may be excluded from the Fund's investible universe. In addition, the General Partner utilizes its proprietary ESG&V assessment tool to rate and analyze potential private market investments from an ESG-related perspective.

c8) HOW WILL YOUR PROFITS BE TAXED?

The tax consequences of making an investment in the Fund may be complex and will vary from investor to investor. There can be no assurance that the Fund's structure or any of the Fund's Investments will be tax- efficient to any LP. In addition, existing or anticipated tax benefits derived from an income tax treaty or related structure could be challenged with the consequence being that the related investment may be subject to withholding tax or other penalties or taxes, which would adversely affect the performance of the Fund. For instance,

revenues of the Fund may be subject to withholding taxes in the country of origin of the issuer of the security in respect of which such income is paid.

In certain circumstances, Investors could be required to recognise taxable income in a taxable year, even though the Fund had either no net profits in such year or had an amount of net profits in such year that is less than such amount of taxable income and without regard to whether any distribution from the Fund has been or will be received. In addition, there can be no assurance that the Fund will distribute sufficient cash to cover the full tax liabilities of a particular Investor's pro rata share of the taxable income of the Fund.
